Golden Scissors Award: VIP Haircut Service

CASEY INC HAIR & BEAUTY

*Haircut, from \$190.75 for
60 to 90 minutes*

Casey is a veteran with locals and expats alike and has spent the last 32 years cutting and coiffing the hair of an elite crowd.

He impresses with his honest advice and delivers a refreshing bounce to your hair with a few measured snips. Beauty insiders will love the little touches at the salon as well: you slip on a robe when you enter, are served a delicious cup of ginger tea with honey, and if you're lucky, a slice of Casey's homemade banana cake.

TOOLS

Wield these for a cover-shoot worthy mane

Best Hair Dryer

ROWENTA

Hair Studio Elite CV4412, \$49.90

Ionic hair dryers are great not only for an effective drying process but also for how it cuts down on static hair and lends a healthy shine to your mane. This high-speed dryer offers two speeds, different temperatures and foldable handles—making it your bucket bag essential.

Best Bristle Brush

*Handy Bristle Brush
for Fine Hair, \$240*

Coated with boar and nylon bristles for gentle brushing and to spread hair's natural oils out, this is every beauty insider's go-to brush for hair that glows with health.

Best Multi-Tasking Hair Tool

ROWENTA

Styler Liss & Curl Elite SF4412, \$89.90

We love this innovative styler for its straightening and curling properties—armed with state-of-the-art long plates, protection against overheating and an Ultra-Shine Nano Ceramic Technology, this tool fights flat or frizzy hair like it was made to win a war.

Best Scalp Stimulator

MUCOTA

Scalp Massager, \$58

Containing tourmaline that injects moisture into hair, the circulatory action of this scalp massager also removes dirt and dandruff.

Best Hair Dryer for Sensitive Scalp

PANASONIC

Nanocare Hair Dryer EH-NA45, \$169

The difference is this hair dryer improves hair quality and texture as it dries your locks. Ideal for sensitive scalps, this mane tamer gives out platinum and nanoe ions to remove sebum from your scalp and protect it from peeling cuticles. Its quick dry nozzle also ensures a faster wet-to-dry hair turnaround.

Best Drying Brush

DENI

KeraStraight KS Ultimate Brazilian Keratin Anti-Frizz Treatment

From \$267.50, from 180 minutes

Get smooth and sleek locks with this frizz-eliminating, shine-imparting treatment. Inspired from by the land which produced the likes of Gisele Bundchen and Adriana Lima, the KS Ultimate Brazilian Keratin Anti-Frizz Treatment by hair gurus KeraStraight helps give you that signature sexy flowing mane that gleams with vitality.

This hair-soothing treatment begins with a consultation so that the stylist is able to ascertain your mane's needs. Weaker or dryer areas will then be given some extra TLC throughout your treatment to make sure that you leave with healthy locks.

A mane-prepping deep cleanser helps open your cuticles gently so that your follicles can better absorb the benefits of this treatment. After a quick blow dry, your hair care expert will treat your tresses with a protein-balancing spray, which helps to regulate your hair's moisture levels and give weak and porous strands added resilience.

Once your hair is ready, get set for ultra silkiness as the Keratin Treatment is now massaged in. Relax for the next 45 minutes as this potent potion works its strand-reviving magic on you. After a deep rinse, look forward to some hair

“candy” – the low-pH Moisture-Lock Masque helps bind hydration to your freshly straightened hair.

Then, a digital titanium flat iron is applied from hair root to tip to seal the deal. Customisable to suit all hair types, weakened strands will be handled at lower temperatures to give your optimal sleekness with maximum care.

Thanks to the extra pampering care at Casey Inc, you can look forward to your best relaxation experience – both inside and out – after your treatment.

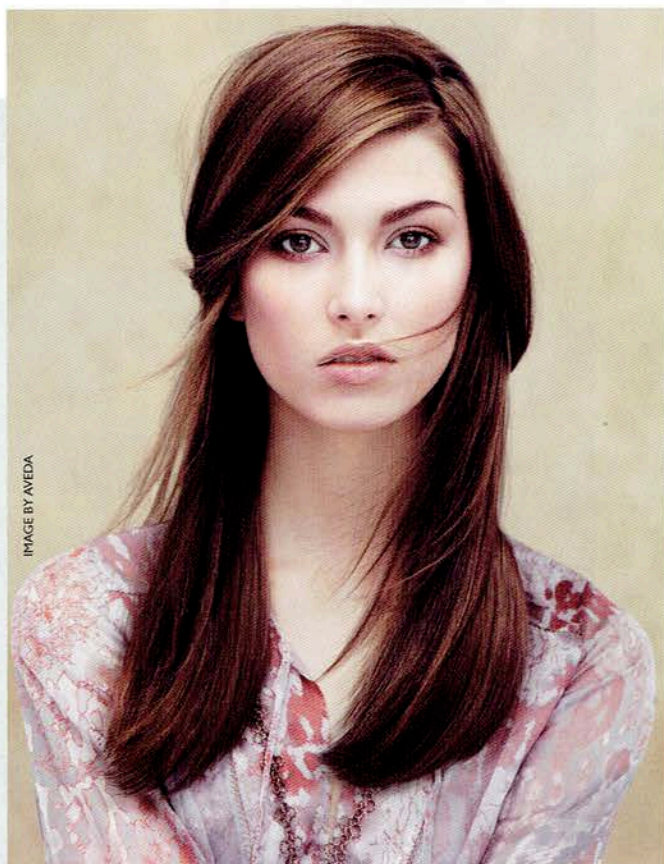

THE SMOOTH DEAL

Casey Chua, Director and principal stylist of Casey Inc Hair & Beauty explains **how you can stay frizz-free for a longer time.**

“After your Keratin Treatment, avoid shampooing your hair for the next 24 hours. To best maintain your hair post-treatment, I recommend the sodium chloride-free After-Care Shampoo, which is mild on your hair, and the specially formulated Conditioner, which contains a blend of complex proteins and low pH balance to smooth down your cuticles.”

strands, this flexible formula also works for highlights, lowlights and special effects, like ombre shading, dip-dyeing or the balayage sun-streaked style.

With this pampering treatment, enjoy a hair hue that stays true to its original tone and tresses that gleam with health and vitality. After a detailed consultation, your Casey Inc hair colour technician will first carefully mix and prepare your chosen shade.

During the time it takes for the formula to work its tinting magic on your follicles, your mane will be meticulously monitored by your stylist to ensure that the mixture is evenly distributed and well taken in.

Then, a shampoo specially created to lock colour while promoting its longevity is used

to rinse your hair. Luxuriate in a soothing little head massage as your stylist's expert hands helps care gently for your tresses.

Lastly, to maintain the pH balance of your tresses, a deep conditioner is applied for 10 minutes to your towel-dried locks. Get primed for your most vibrant, healthy-looking hair colour yet, thanks to the extra loving treatment and services you will receive at Casey Inc.

Lock in the most flattering shade for your mien with the rich hues of the Aveda Full Spectrum Deep™ Hair Colour. Made up of an overwhelmingly botanical formula, 93 per cent of the hair dye used is naturally derived to give both your scalp and hair the best care possible.

Pampering plant oils and fade-resistant pigments are harnessed to give your crown stunning colour that will not budge in between your dye jobs. Immersing your hair in nature's best, you will enjoy—and see—the benefits of sunflower and jojoba oils, long after your treatment is over.

Perfect if you want customised hues to look their best, or for those who need to cover up their greying

SHOW YOUR TRUE COLOURS

Casey Chua, Director and principal stylist of Casey Inc Hair & Beauty, tells you **how to maximise your hair hue.**

"Patience is key—waiting for 48 hours after colouring your hair before you give it a shampoo will help prolong your hair colour and condition. Cut down on swimming and avoid direct sunlight as well. And, opt for a deep conditioning treatment once a week to perk up bright hair colours. Be sure to use Aveda's shampoos and conditioners for coloured hair, as they are formulated to protect colour."

MASON PEARSON

Handy Bristle Brush for Fine Hair

\$240

Tresses that are well cared for can instantly imbue you with that well groomed and expensive look. So investing in a quality brush is a must—Mason Pearson's bristle brush made of 100 per cent boar's hair, imparts high shine and a lustrous glow to your mane.

In a class all of its own, this handmade brush, made by one of the world's leaders of hair brushes, is ultra gentle on fine or soft strands, while giving your scalp a firm and satisfying massage.

Used regularly, this brush helps clear your clogged scalp of accumulated dead skin cells, debris and dirt. This allows your skin to breathe better—paving the way for better cell regeneration while helping prevent hair loss.

What's more, the proverbial 100 strokes with this brush will maximise your scalp's blood circulation and detoxify the skin while bringing a fresh flow of nutrients right down to your hair tips. This multi-tasker also helps to evenly distribute your hair oils, giving your hair silky smoothness the natural way.

Crafted in the UK using traditional techniques since Victorian times, each brush is lovingly made using only the finest materials. A cellulose plastic handle makes gripping and control of the brush easy for even the slimmest fingers, while a special rubber pad cushions your scalp against unnecessary impact as you brush—giving you your deepest, most comfortable brush possible.

Also available in a pocket size for beauty lovers who are constantly on the go, those with normal to thick hair can also enjoy the Bristle and Nylon brush, made with a mix of boar's hair and nylon. Thanks to its rich heritage of brush-making techniques, you can give your hair more swing and sheen with a Mason Pearson brush.
